### HEARD IN TONOPAH IN 1930

TN AFTER years, boy, you may have sons of your own and one of them may say to you: "Dad, were you a soldier in the world war! Did you help make the people free!" Then you may say: "Yes, lad, I fought in France. Here is the service button, the government force you into the army; were you a conscript or for the purpose of making the fighting forces effective. a volunteer ?"

### THE THE REA THE THE THE THE LET GOLD MOUNTAIN POINT THE WAY

S OMEONE said to the Bonanza yesterday: "You started out well with that ball you were planning to roll to Washington, but you have eased up lately. Why?" There is no why about it. The Bonanza has been busy getting into communication with candidates for the United States senate and the house of representatives and is receiving positive pledges that support and strong support will be given the move to abolish the extra-lateral rights provision in the federal mining statutes. Furthermore other newspapers have taken up the cause and the ball is rolling on. The Magnet has gotten it over the Manhattan summit and it and funds of nearly a million dol is now taking a due easterly course, growing larger as it rolls.

It would be a great help for a re-born district such as Gold Mountain to gain the distinction of being the first to establish a Mandelberg, head of the organizing vertical line agreement among all the properties. For you know that even if the provision is repealed, as it will be, it cannot be saying made to apply to locations made previous to the measure's becoming a law. It will be necessary to have present claim owners markets of the world, and to proagree to vertical boundaries and Gold Mountain should take the vide for the increase in wages on lead. This is a camp with boundless opportunities and wonder- grewar rates, the output of ful possibilities. It is just getting started. NO MORE difficult problem of international politics can be firm shall have such offices collections conceived than that which President Wilson faces in dealing the true of the men in charge will be with Japan. Some insist that Japan should co-operate with the best that can be found. They China to prevent the treacherous Bo'shevik from seizing and, will have behind them the prestige perhaps, turning over the military and railroad supplies at Vladivostok to Germany. Others would have Japan occupy Siberia world." east of Lake Baikal in conjunction, if possible, with Russians who wish to keep faith with the entente allies, says the New York SALE CONSUMMATED Commercial. Certain elements that seek political advantage by opposing Japan call on the President to interdict any occupation of Russian territory by Japan or China, or any interference with the Bolshevik government.

Japan's interests are paramount in Eastern Asia and she cannot afford to let Germany, directly or indirectly, control Eastern Siberia. It is as important for Japan to keep her sphere of influence free from German interference as it is for the United States to uphold the Monroe Doctrine. The cases are similar in quistioned from the Mexican Navimany respects. Japan has as much right to keep Germans out of Eastern Siberia as we have to keep them out of Mexico. The only question is the reality and imminence of the danger. We cannot ask Japan to put herself in peril.

Those who profess to distrust Japan must remember that she sovernment's act of confiscation might make an agreement with Germany to divide helpless Rus. and for a time the government resia.
